● Course Aim:

The Environmental Science programme is designed to bring science to life through a series of field-based, environmental investigations. The programme focus is on developing an understanding of environmental science, environmental management and traditional Māori environmental management practices.

● Learning Objectives:

Students will have the opportunity to achieve the following objectives:

Academic Objectives:

- Describe the ecological niche of an animal species
- Investigate and report a variable of an animal species' ecological niche
- Describe the ecological niche of a plant species
- Investigate and report a variable of a plant species' ecological niche
- Plan, carry out and evaluate a local Kaitiakitanga activity
- Explain kaitiakitanga in terms of how Māori interact with te taiao
- Explain the use of tikanga Māori as part of exercising kaitiakitanga

Personal and Social Development Objectives:

- Increasing willingness to learn
- Understanding and assuming personal responsibility
- Developing belief in self and increasing confidence
- Developing a positive attitude
- Recognising and developing potential
- Developing resilience skills (coping with challenge and change)
- Developing positive communication skills

*Tirohia kia marama
Whawhangia kia rangona te ha*

**Observe to gain enlightenment
Participate to feel the essence**
